

Student Activity Options:

1. Map & Visual Exploration

- Label Red Sea, Arabian Gulf, Mecca, and Jabal al-Sooda on a blank map of Saudi Arabia.
- Identify and shade desert regions and mountain ranges.

2. Quick Comprehension Questions

- What makes the Zamzam well special?
- Why are palm trees important in desert areas?
- How do Saudi Arabia's landforms affect where people live?

3. Reflection & Discussion Prompts

- What role does geography play in shaping daily life in a desert country?
- Compare Saudi Arabia's water sources to those in your country.
- Why do you think the Zamzam well is important culturally and spiritually?

Optional Extension (Interdisciplinary):

- **Science:** Research how underground wells are formed and how they keep flowing.
- **Language Acquisition:** Write a short paragraph using 3 Arabic key words to describe the geography of Saudi Arabia.
