

Funmaxxing

Materials list

For this class you'll need:

- A list of ways that you have fun, and some collage materials that speak to this. Examples: I prefer vacuuming the house while listening to drum and bass on headphones. I buy low-value postage stamps so that every letter I send is covered in a joyful array of stamps. I have googly-eye stickers so that everything I find can easily become a face. In grey weather I use neon everything. I hang old chandelier pieces in the windows to make rainbows with the low winter sun. When I'm down I send my friends letters Etc. How do you maximise fun? Let's make a zine about that.
- Your **Basic materials** (see page 5.)
