

## **Course Title**

Legal Nurse Consulting Course

## **Course Description**

This practical course introduces nurses, nurse practitioners, and physician assistants to Legal Nurse Consulting, from core roles and responsibilities to advanced casework. Learners will practice medical record analysis, reporting, and case strategy support, then explore specialized areas (e.g., medical malpractice, personal injury, product liability, healthcare fraud) and practice-building tactics like networking, marketing, and continuing education. By the end, participants will be ready to translate clinical expertise into credible legal support and launch or grow a flexible LNC side practice.

## **Course Outcomes**

By the conclusion of this module, the student should be able to:

- Define the foundations of the legal nurse consulting role
- Understanding the clients that can be served within the legal nurse consulting role
- Review business basics for the legal nurse consultant
- Identify software essentials for Legal nurse consultants
- Develop skills essential for report writing
- Restate Marketing basics for Legal nurse consultant business courses
