

Dear Grade 11 learner

Physical Sciences is a tricky subject and can get overwhelming.
We understand.

Here's some tips to help you ensure that you are well prepared for the June Exam.

1. **Consistent practice** is very important!
The more you practice, the better you will get
 2. We recommend **30 min DAILY for Physical Sciences** on weekdays and 1 hr on weekends
- **Break down the topics** and study one section at a time.
 - Ensure that you **practice past paper questions** and not just textbook questions.
 - When studying, **write the answers in pen in a study notebook and use the memo to mark** and correct your work. Give yourself marks and keep practicing till you see a good improvement in the marks you score.

THE PHYSBUDDY STUDY PLAN **FOR PHYSICAL SCIENCES**

For many years , each term we design and share the PhysBuddy plan to ensure that you **ACE PHYSICAL SCIENCES**.

We have received great feedback from learners who use the study plan.

HOW TO USE THE PHYSBUDDY STUDY PLAN **FOR PHYSICAL SCIENCES**

- The plan is a GUIDE AND IS FLEXIBLE.

You can adjust the days and start with any topic, just ensure that you cover all the topics

We recommend starting with the topic you are currently working with at school

A BLANK GRID IS ATTACHED FOR YOU TO USE

- RECOMMENDED QUESTIONS

The recommended questions are all from past exam papers and are hand selected from different years and provinces to ensure that you are prepared for all types of exam questions.
Complete as many as you can with understanding.

If you are struggling to answer these questions

Consider signing up for the PhysBuddy Video Course for R300
These lessons will teach you all the important concepts and show you how to tackle exam questions with confidence.
