Who is a Mutual Fund Distributor?

Why Mutual Funds are Key to India's Financial Growth

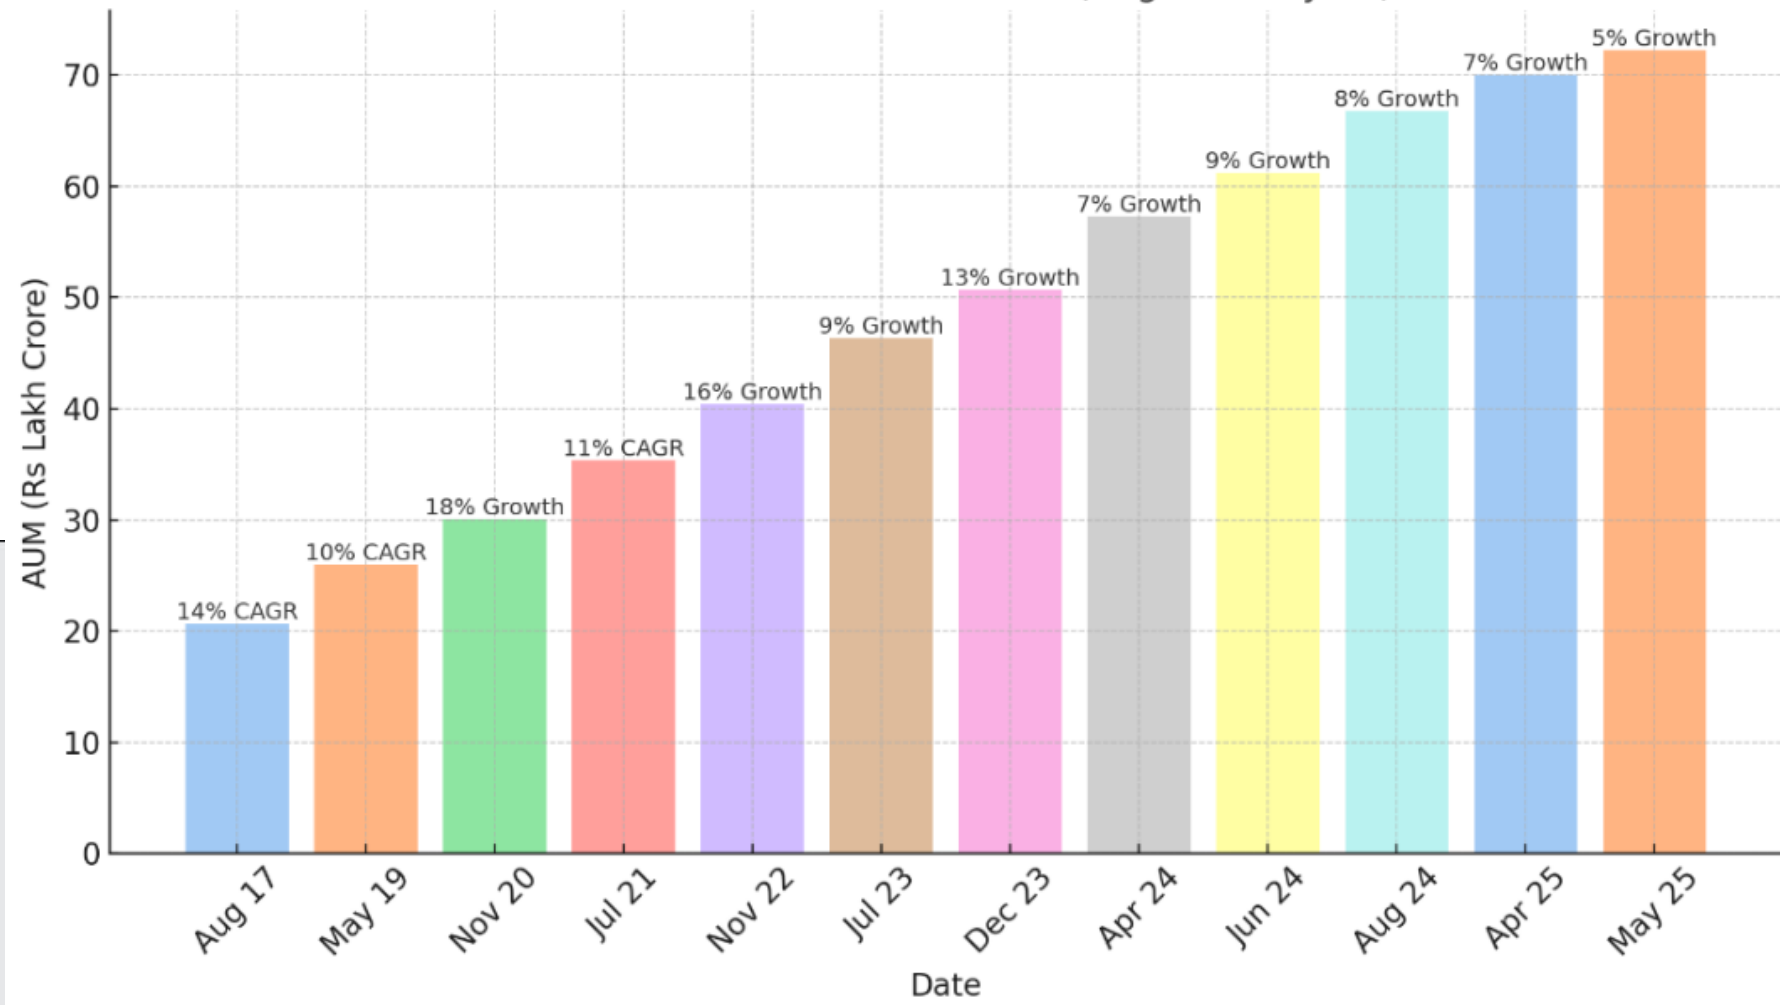

Pool the money from small investors

To channelize savings into investment and enhance financial security & over all economic growth

As the AUM grows they provide capital to companies for business expansion

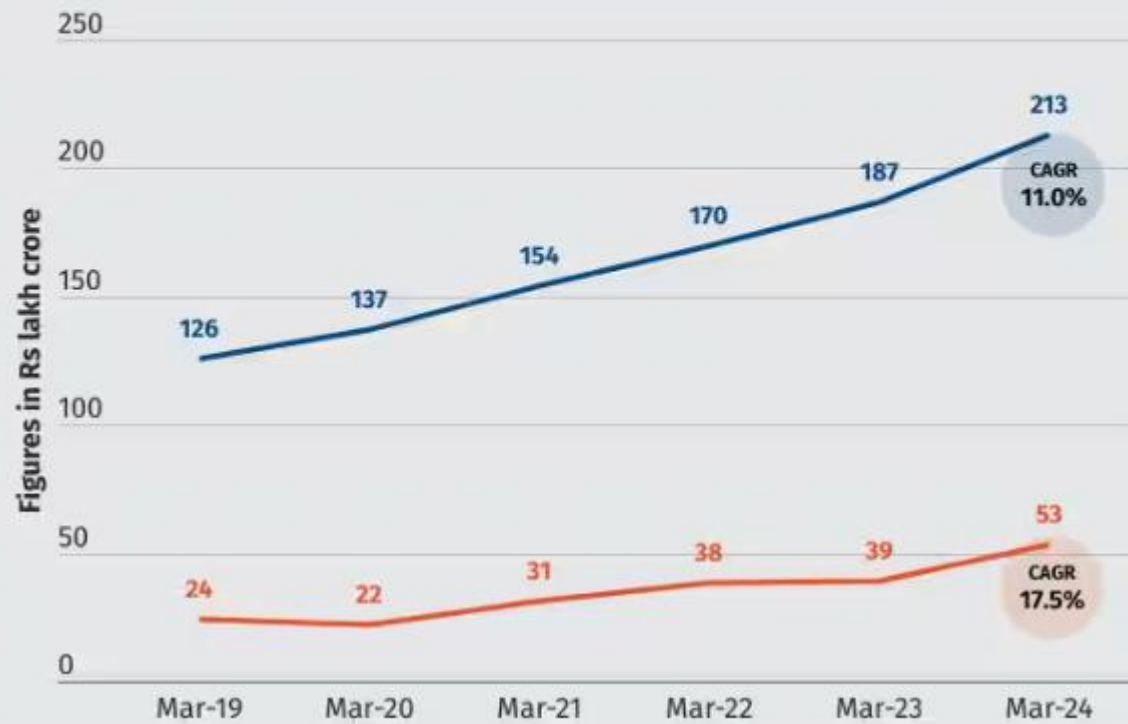

Indian Mutual Fund AUM Growth (Aug 17 - May 25)

MUTUAL FUNDS' AUM INCREASED AT 17.5% CAGR

Growth Between March 2019 and 2024

— Bank Deposits — Mutual Funds AUM

Source: CRISIL, AMFI, RBI

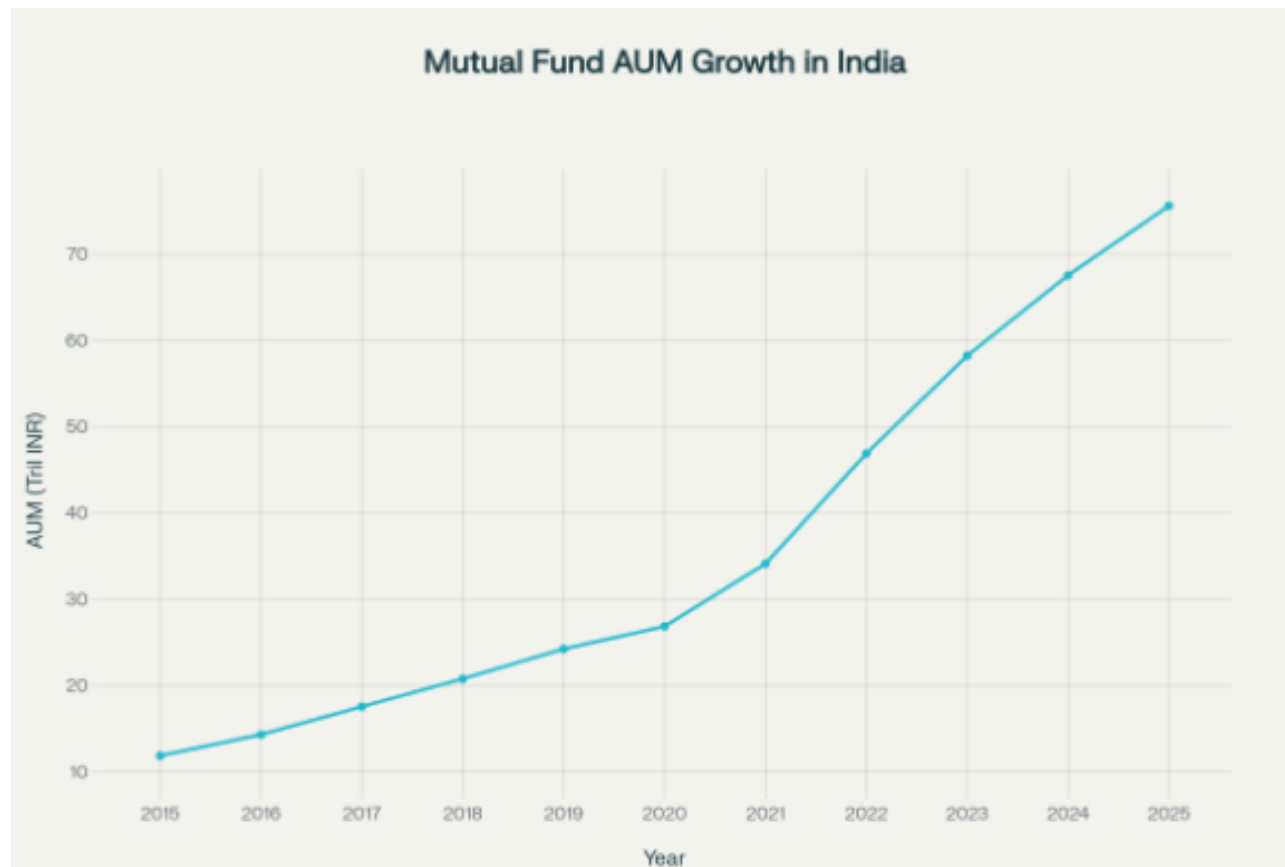

Why Choose Mutual Fund Distribution?

- High earning potential with recurring commissions
- Low startup capital, easy market entry
- Flexibility and independence as a business owner
- Growing retail investor base

Industry Growth & Market Potential

- India's mutual fund AUM growth trends over the last 5 years
- Increasing financial awareness and retail participation
- Opportunities expanding in tier 2 and 3 cities

The Commission Model Explained

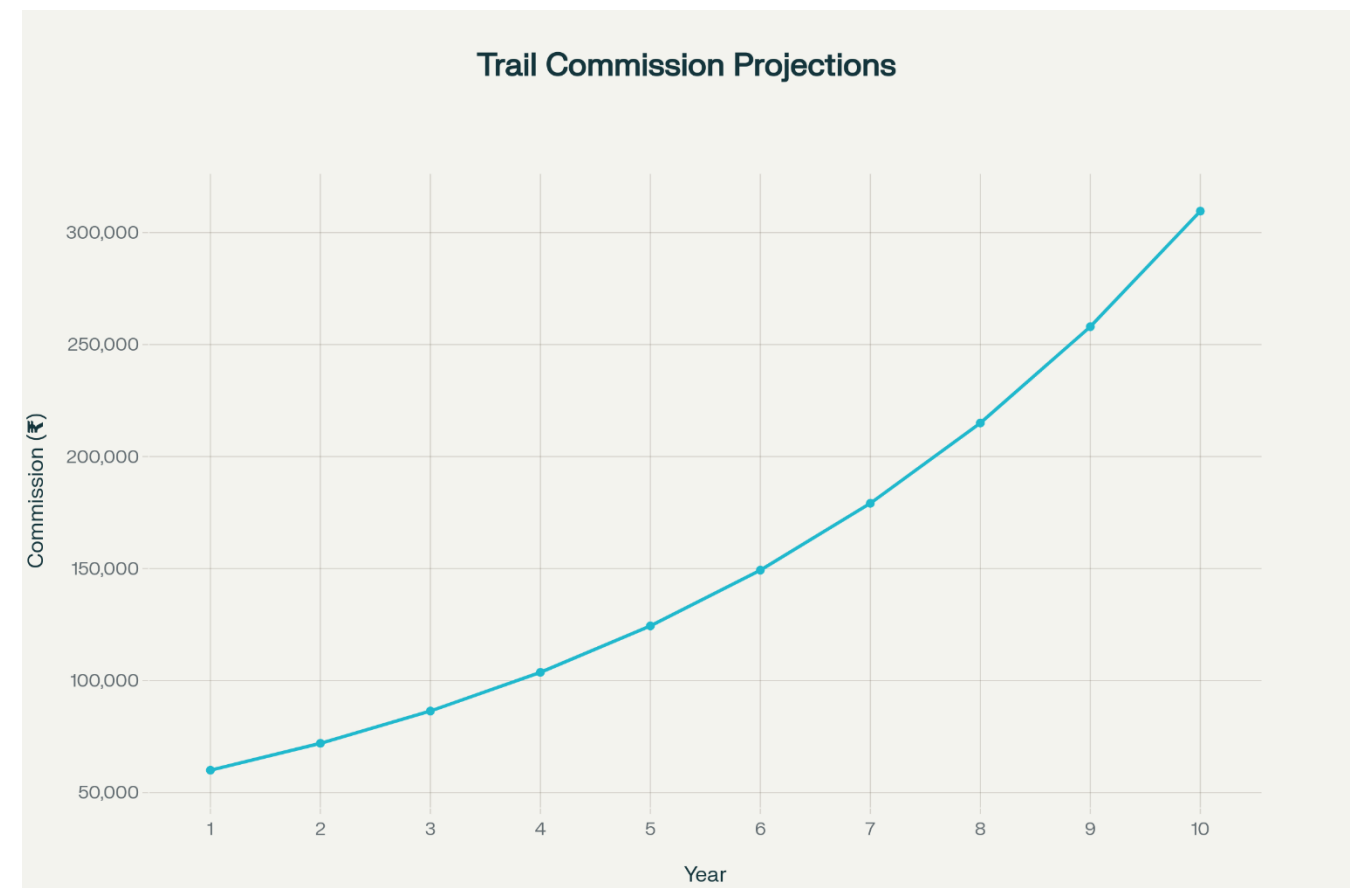

- Initial upfront commission vs Trail commission
- Trail commissions are recurring and based on Assets Under Management (AUM)

Trail Commission - The Compound Growth Engine

- Trail commissions create recurring income that grows with AUM
- Earnings increase as client investments increase
- SIP contributions enhance the compounding effect over time

Based on the following assumptions

- Starting with ₹1 crore AUM.
- 20% annual AUM growth rate.
- Trail commission at 0.6%.

Success Factors for Distributors

- Strong financial and product knowledge
- Building long-term client trust
- Regular client engagement and portfolio reviews
- Using digital tools for efficient client management
