About My Supplies:

I Use two different palettes, (1) is my wet gouache palette and (2) my dry gouache palette. I find them to be two very different experiences to paint with. I've listed the colors I currently use in both separate palettes. Please know... my color choice will change over time. I try to keep this updated as time goes on. You will also find two of the same color, but different brands in each palette. This is because I'm trying different brands to see which one I like that specific color in. Pick and choose for yourself what you like. You can work with a limited palette, but I like lots of color and just enjoy having a multitude of colors! Have fun and Happy Gouache Painting!!!

Gouache Brands and colors in My StayWet Palette:

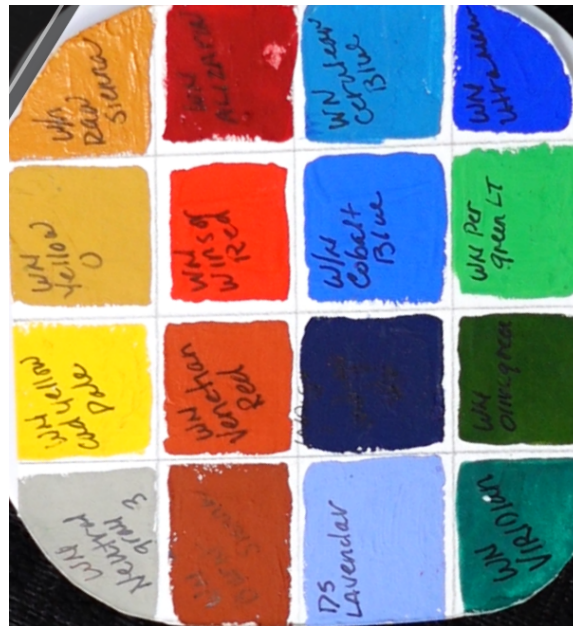

Colors: 14ml tube except for White

I stress that you don't need all the colors I use. I'm trying many different colors to see what I like. So this list will probably change over time. You can get by with a very limited palette, the basics red, blue, yellow and white. All paints are Winsor & Newton brand unless noted.
