How did you hear about our workshops?

***\*Use this form to receive 20% off any of the listed workshops!\****

*Please note: To ensure competence in the material, all components of the certification program (courses, supervision sessions, and client sessions) must be completed within two (2) years. This two-year clock starts on the date you complete your first qualifying course, supervision session, or client session, even if you completed it as an individual purchase before deciding to pursue the full certification. If more than two (2) years have passed since a component was completed, it will need to be retaken in order to count toward certification.*
