

First Lego League Curriculum - Ontario

Questions	
Question 1 Math	Would it have been harder without their North, South, East and West Clues?
<hr/> <hr/>	
Question 2 Math	If someone hands you a map to use, it is very important to <u>line it up properly with the Northerly direction</u> , otherwise you'll never know which direction you're heading. How is this done?
<hr/> <hr/>	
Question 3 Math	What direction do you think North-East is? Draw an arrow to show your answer.
<hr/> <hr/>	
Question 4 Coding	What made travelling the correct distance you wanted difficult? Did you use seconds or rotations?
<hr/> <hr/>	
Question 5 Math	If your partner were to us both direction AND distance in their clues, how many tries do you think it would have taken you to get it right? Explain.
<hr/> <hr/>
