

Fractions Steeplechase - Extensions

LEVEL UP your coding skills with [Prodigy Learning](#) and their [Coding Credentials](#) program! The agent is an amazing resource in Minecraft that is often under-utilized by students. Consider checking out Prodigy Learning and their coding courses, and revisiting the lesson to use the agent to help with design challenges, such as building an elevator or creating a labyrinth in the museum gardens.

Other Extension Ideas:

- Create your own fractions or decimal number line in a flat world. Use the camera and portfolio to document your work.
- Create your own world on fractions number line in a flat world. It could be a world where you would create your own number line problems and challenge your classmates. This world could be done individually or in teams. Create a draft or plan of the world on graph paper. Once the world is complete, you could change the settings from creative to survival and create a parkour course or a race with a specific animal. Be creative!
- Choose a world with various landforms, and create various vertical number lines using fractions to measure different landforms. Use the camera and portfolio to document your work.
