

Course Title

Stem Cell and Regenerative Injection Clinic Course

Course Description

This course is designed for the nurse practitioner who is looking for the training and information necessary to integrate Stem Cell and Regenerative Injection therapy into their new or existing practice. This course discusses the clinical and business components of a Stem Cell and Regenerative Injection clinic to include administrative and marketing considerations. The course provides an in-depth review of the physiology behind stem cells and the various types of regenerative treatment options available. The potential liabilities, legalities, and regulations of providing stem cell therapy and regenerative medicine will be also reviewed.

Course Outcomes

By the conclusion of this module, the student should be able to:

- Discuss the foundational knowledge of regenerative medicine
- Understand the various types of regenerative treatment options including stem cell therapy
- Understand the various clinical aspects and treatments of stem cell and regenerative treatment
- Understand how to integrate stem cell therapy and regenerative medicine into their current or new practice
