

## Course Title

### **The Off-Label Medication and Treatment Course**

## **Course Description**

This course provides NPs with an understanding of off-label treatment options, exploring their risks and benefits to patients. Attendees will explore the integration of off-label medications into practice, considering FDA regulations and the ethical framework surrounding alternative treatment options. By the course's end, practitioners will be equipped to navigate the complexities of off-label prescribing, expanding their toolkit to optimize patient care.

## **Course Outcomes**

By the conclusion of this module, the student should be able to:

- What "off-label" treatment options are and how to utilize them in your practice.
- The risks and liabilities of off-label prescribing.
- The utilization of off-label medications from an integrative medicine viewpoint.
- How to dose the medications.
- The risks and benefits of each medication.
- What symptoms to use off-label medications for.
- How to manage side effects.
