K-12 Goal:

- Think and learn critically
- Analyze and critique objects, events, experiences, ideas, theories, expressions, situations, and other phenomena
- Apply, evaluate, and respond to differing strategies for solving problems and making decisions

Digital Citizenship Education in Saskatchewan Public Schools

Element 5: Digital Literacy

Ensuring that students develop the digital literacies that will allow them to succeed in future professions and to be lifelong learners who can adapt to our rapidly changing, increasingly digital world.
