## I think so? Or I think?

@leilas\_English\_lab 

I think so. قبول دارم، من هم همینطور، فکر کنم.

I think  
there's  
been a  
mistake

This  
should be  
enough

I think ... فکر کنم یا نظر من این است که...

# I think so

@leilas\_English\_lab 

1. We use it in answer to a question

Do you think you  
can manage?

I think  
so.

2. We use it when we want to agree with someone's sentence

It looks  
like rain.

I think so.

# I think...

@leilas\_English\_lab 

We use it to give our opinion on something.

I think you  
should get  
a second  
opinion

I think  
you're being  
very  
ambitious

I think you  
should  
sleep on it.

## I think so

@leilas\_English\_lab 

1. (school teacher): Do you think you can sit down with him for an hour every day?

*I think so.*

2. (customer): Do you think you can make the back look a bit more tidy?

*I think so.*

3. (office / home): I think it needs a once – over.

*I think so.*
