

Meet and Greet - Extensions

LEVEL UP your coding skills with [Prodigy Learning](#) and their [Coding Credentials](#) program! The agent is an amazing resource in Minecraft that is often under-utilized by students. Consider checking out Prodigy Learning and their coding courses, and revisiting the lesson to use the agent to help with design challenges, such as building an elevator or creating a labyrinth in the museum gardens.

Credentials & Curriculum Pathway

Other Extension Ideas:

- Make a news article about the people you interview there. Take photos and use your article to encourage your readers that the people are inspirational/destructive to society.
- The final NPC on the timeline could have a link to a Flipgrid topic that would provide a speakers corner on who they just interacted with.
- Create a textbook in Wakelet where students can collaborate and add their timeline PDFs to a collection and create a resource.
