

## **The IV Infusion and Injectable Clinic Course**

### **Course Description**

This course educates the employed or self-employed Nurse Practitioner on how to be able to successfully integrate IV-Infusion and Injectable service lines into their established or newly formed practice which will allow the NP entrepreneur to satisfy local patient demand with this growing field and help improve the wellbeing of their local communities.

### **Course Outcomes**

By the conclusion of this module, the student should be able to:

- Appraise various infusion and injectable therapies to include treatment efficacy, frequency, side effects, risks, and contraindications.
- Discuss the pharmacological considerations of IV infusion and injectable therapies including tonicity, osmolarity, stability, and PH.
- Apprise the legalities, regulations, liabilities, and guidelines of IV infusion therapy.
- Formulate a plan to create and market a fully functioning IV infusion and Injectable Clinic.
