

## Active Citizen - Extensions

LEVEL UP your coding skills with [Prodigy Learning](#) and their [Coding Credentials](#) program! The agent is an amazing resource in Minecraft that is often under-utilized by students. Consider checking out Prodigy Learning and their coding courses, and revisiting the lesson to use the agent to help with design challenges, such as building an elevator or creating a labyrinth in the museum gardens.

### Other Extension Ideas:

Consider using The Agent within Minecraft: Education Edition to help with the following scenario:

In this lesson we met five outstanding people and for four of them we assisted with their cause and passion. At the end of the lesson there is a build challenge where students are to build a depiction of their own cause or passion area. Perhaps the Agent could be called in to assist with building elements of the representation of the students' causes.
