

## Hour of Code - Artificial Intelligence: Extensions

LEVEL UP your coding skills with [Prodigy Learning](#) and their [Coding Credentials](#) program! The agent is an amazing resource in Minecraft that is often under-utilized by students. Consider checking out Prodigy Learning and their coding courses, and revisiting the lesson to use the agent to help with design challenges, such as building an elevator or creating a labyrinth in the museum gardens.

### Other Extension Ideas:

- For a longer and really well explained coding lesson once again featuring the agent, check out “A Tale of Two Villages” lesson.
  - Link to lesson: <https://learn.logicsacademy.com/p/lessons-in-good-trouble>
  - Youtube Trailer: [\(14\) Hour of Code: A Minecraft Tale of Two Villages Tutorial - YouTube](#)
- To review coding with students who are struggling with coding, or for those who just want more practice with the fundamentals of moving and coding, students can visit the Animal Research Center and give their agent some basic code to make him move around the world and help with a student’s animal research: [Basic Moves & the Agent | Minecraft Education Edition](#)
