

Collections

Materials list

For this class you'll need:

- A collection, in collage-able form. Photos of favourite mugs. Rubber stamps on scraps of tissue paper. Postage stamps. Receipts and other ephemera from the bottom of an old bag. Etc.
- **Basic materials** (see page 5.)

About my Zoom classes

To maximise collaging time, I will jump straight into making, demonstrating what I'm doing and pinning my video so you can see what's going on, and **collage with me!** Questions are warmly invited throughout, and I'll save the last twenty minutes for sharing what you've made. Lurking is allowed; you don't have to speak or share if you don't want to! Exuberant learning styles also very welcome. Come as you are; this is a relaxed, guided making session designed to get you collaging right away. The session is being recorded for folks who can't make the time-zone. If you would like to share the class with a loved-one, bring them along and watch together at no extra charge.
