

# Idea Organizer

For the Writer with *Lots* of Ideas

**Directions:** Use the sheet below to identify the story idea you'd like to focus on for this course. If you have many, start by listing all of them. That way, if this idea loses steam you can always come back here to think about your other ideas. Next, narrow down your list to **two** and add a little more detail. Perhaps, visualize an ending or direction for those ideas. Finally, pick the one that you are the most excited by.
