

# ELD Impact Academy: Practical skills for humanitarian and development work

**Design. Manage. Measure. Engage.**

**Consistent frameworks. Field-tested tools. Knowledge that lasts.**

In most organizations, teams learn MEAL, Theory of Change, and project management in different ways — on the job, through workshops, or from previous roles.

This creates fragmented practice across organizations::

- Different approaches across teams and countries
- Inconsistent program design and reporting
- Repeated gaps and avoidable mistakes

When staff leave (which happens often), the cycle restarts — affecting proposal quality, reporting quality, and delivery efficiency.

ELD Impact Academy gives teams one shared, practical learning system they can all use.

Built from 25+ years of field experience across 100+ countries. Self-paced courses designed for real field conditions.

Different people take different courses but align around the same core frameworks over time.

All subscribers receive:

- Full access to all certificate courses (new ones added regularly)
- Certificate of completion for each course
- AI Coach inside each course
- Orientation Guide

Teams additionally receive:

- Individual accounts for each team member
- Manager's Guide
- Easy seat transfers
