

MIOH+ Success Path

In the **Music in Our Homeschool Plus** membership, your ultimate goal is to create a habit of including music education in your homeschool weekly.

Use the Success Path below to guide you along the path to success!

1 Beginner: Getting it Done Stage

In the "Getting it Done" stage, you are finally doing music education with your kids. Yay! Each day, or at least once a week, you open your phone, tablet, or computer and play one of the lessons from MIOH+. You're using the Monthly Calendar, which tells you which lesson to do each day; or you're going through one of the courses and doing the next lesson in order; or your high schooler has taken responsibility to do their course lessons each week on their own!

2 Advanced: Going & Growing Stage

You are in the "Going & Growing" stage once you have gotten consistent with doing music lessons with your kids, at least one lesson per week for three months. You and your student(s) have learned some music concepts and are more versed in music terminology. You know more about composers, instruments, and the eras of music. You have listened to and are appreciating more music than you ever have before!

3 Pro: Completing & Continuing Stage

You are in the "Completing & Continuing" stage once you have gotten consistent with your music lessons from the "Going and Growing" stage. You've been doing at least one lesson per week for six months. You and your student(s) have learned lots of music concepts and terminology. You know about many composers, genres, styles, and even music theory. You are a pro at appreciating music!
