

## **Course Title**

The Definitive Weight Loss Clinic Course

## **Course Description**

This course is designed for the nurse practitioner who is looking for the training and information necessary to open a weight loss clinic or integrate these services into their already existing practice. This course discusses the clinical and business components of a weight loss clinic to include administrative and marketing considerations. The course provides an in-depth review of the physiology of weight loss including current treatment recommendations and clinical aspects. The potential liabilities, legalities, and regulations of medical weight loss will be also reviewed.

## **Course Outcomes**

By the conclusion of this module, the student should be able to:

- Discuss the foundational knowledge of evaluating, diagnosing, and providing medical weight loss
- Understand the physiological adaptations of weight loss
- Understand the various clinical aspects and treatments medical weight loss
- Understand how to integrate weight loss management with telemedicine
