

Journey Into Gouache

Linda Glover Gooch

Supplies For Journey Into Gouache:

I Use two different palettes, (1) is my wet gouache palette and (2) my dry gouache palette. I find them to be two very different experiences to paint with.

You **WILL NOT** need all the colors you see in the dry gouache palette. Below is the list of colors that are used in this course. There are 16 colors in my stay wet palette, with the addition of 2 other colors from the lesson out of the dry gouache palette and white. That is a total of 19 colors.

You can get by with less, if you want to mix greens and not buy the greens I use. I am just a fan of the gouache greens and the convenience of having them. This will be an individual decision, what works for you. If you already have some greens, I say use them.

Gouache Brands and colors in My StayWet Palette:

Colors: 14ml tube except for White, buy the large white tube.

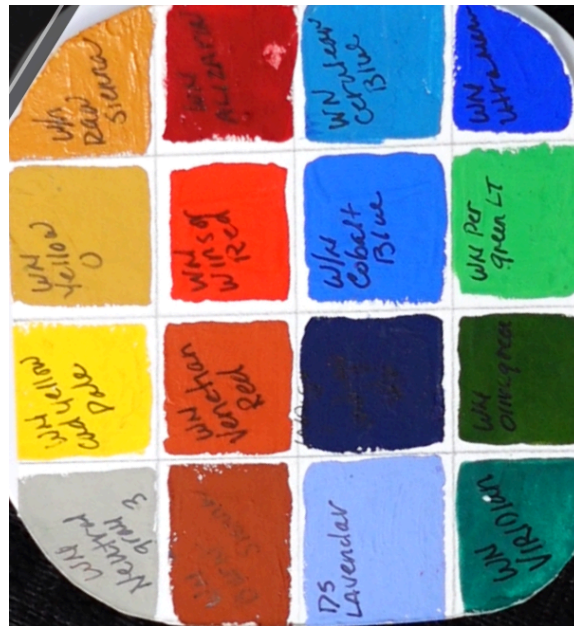

All paints are Winsor & Newton brand unless noted.

DRY GOUACHE PALETTE SET-UP - YOU DONT NEED ALL THESE COLORS

I stress that you do not need to create this big of a palette. I wanted to try several different brands, colors and experienment. You make the choice of how big you want and what type of palette you use. Just for those who are curious this is the Fuumuui Portable Empty 24-Well palette. The styles change continually. Just find what you like. For more information regarding this palette watch the video lesson about How to Set up the dry gouache palette.

A WORD ABOUT THE PALETTES

As a reminder, You do not need to use any of these palettes shown. You can also use the tube paints and squeeze out the amount of paint you need. This is your choice. There is not wrong decision.
