

How to Have the Best Small Group Ever! | Show Notes

No one wants to have a bad small group. So how can you use the time that you've got to have the best small group ever? This video will give you three tips on how to do just that!

01 Plan Well

Planning can't be emphasized enough. You must give yourself time to plan out what you want to happen in your small group. Otherwise, the children will decide for themselves.

02 Personalize It

You may have a curriculum to follow, but those tend to be pretty generic. Personalizing the lesson according to your students' needs will take the quality of your small group from ordinary to excellent. Every child wants to be seen for who they are, not just as another face in the crowd.

03 Pour in Everything

The Lord will sustain you even when your strength falters, if you will depend on Him. If you hold nothing back, you will make an impact in the children's lives that they won't soon forget.
