

Pixel Selfies - Extensions

LEVEL UP your coding skills with [Prodigy Learning](#) and their [Coding Credentials](#) program! The agent is an amazing resource in Minecraft that is often under-utilized by students. Consider checking out Prodigy Learning and their coding courses, and revisiting the lesson to use the agent to help with design challenges, such as building an elevator or creating a labyrinth in the museum gardens.

Other Extension Ideas:

- Calculate the fractions representing each block in your art.
- Create a bigger 3D block with different faces. Each face (4 sides, and top) could represent a pixel art of your favourite things, people, culture or traditions. Then, write about your new art piece using the book and quill. Be creative!
- Use the agent with MakeCode Arcade to code your pixel art project.
