

# Fetal HEART TONE MONITORING

## THE *Middle* WAY

Get clear about how your practice affects your business. Use this diagram to digest choices, explore risk assessment and peer-review. This way of defining who and who is not appropriate for care is key to reducing your liability. Midwives who use this tool offer better decision-making conversations with their clients and increase the safety for everyone, including themselves.

Make a list of the normal course of care for your clients:

THE BRANCHES ARE  
VARIATIONS OR ABNORMALITIES  
FROM *your* STANDARD OF CARE

THE TRUNK IS  
*your* STANDARD OF CARE  
(THE MIDDLE WAY)
