

FISRT LEGO LEAGUE - Ontario

<b>Questions</b>	
Question 1 Science	Is the EV3 robot a physical or social system? (If yes why, if not could they be in the future?)
<hr/> <hr/> <hr/> <hr/>	
Question 2 Science	EV3 has many sensors which send information to the brick. Are these inputs or outputs?
Question 2 Science	<p>With help from the picture below, label and describe the design of each subsystems on the robot, commenting on the location of each sensor, motor, and brick. Explain how the design and location help it to be a better output or input.</p> <div style="text-align: center;">  </div>
