

Conflict in Stories: Extensions

LEVEL UP your coding skills with [Prodigy Learning](#) and their [Coding Credentials](#) program! The agent is an amazing resource in Minecraft that is often under-utilized by students. Consider checking out Prodigy Learning and their coding courses, and revisiting the lesson to use the agent to help with design challenges, such as building an elevator or creating a labyrinth in the museum gardens.

Credentials & Curriculum Pathway

Other Extension Ideas:

- Consider making more revisions to the world to show more conflicts or propose more resolutions.
- Consider another type of conflict outside of character vs. nature or character vs. character and implement it in the build.
- Tell Your Story with Video! - Record your screen and play it out with your character and NPC's to make your conflict come alive. Use editing tools like iMovie or WeVideo to edit your story and add titles and transitions.
