

Bumble Buzz: Extensions

LEVEL UP your coding skills with [Prodigy Learning](#) and their [Coding Credentials](#) program! The agent is an amazing resource in Minecraft that is often under-utilized by students. Consider checking out Prodigy Learning and their coding courses, and revisiting the lesson to use the agent to help with design challenges, such as building walls or fences around your garden, or fertilizing and harvesting your crops.

Credentials & Curriculum Pathway

Other Extension Ideas:

- Have students use the camera and book and quill to create a field guide to the species in their garden ([field guide examples](#)) or a walking tour guide of their garden, pointing out all the species and garden features.
- Have students use Flipgrid to create a video tour of their garden, pointing out all the species and the features they put in to protect and support pollinators.
